Introduction

Welcome to the Context to Call Business Squarespace user guide! This guide will help you set up Context to Call Business Sources and Points and integrate your newly generated Embed Code on your Website effectively to enhance your business experience.

Sign-In

- **Open the Sign-In Page:** Open your web browser and go to the Context to Call Business Sign-In page.
- **Enter Email Address:** In the appropriate field, enter the email address associated with your account.
- **Provide Password:** Enter your account password in the designated password field. Be sure to use the correct combination of uppercase and lowercase letters, numbers, and special characters.
- **Remember Me:** Sign-in forms offer a "Remember Me" option. Selecting this option will keep you signed in on that device/browser for an extended period.
- **Click "Sign In":** Once you've entered your credentials, click the "Sign In" button to proceed.

Dashboard

- **Access Your Account:** Upon successful authentication, you will be granted access to your Context to Call Business account and directed to your account dashboard page.

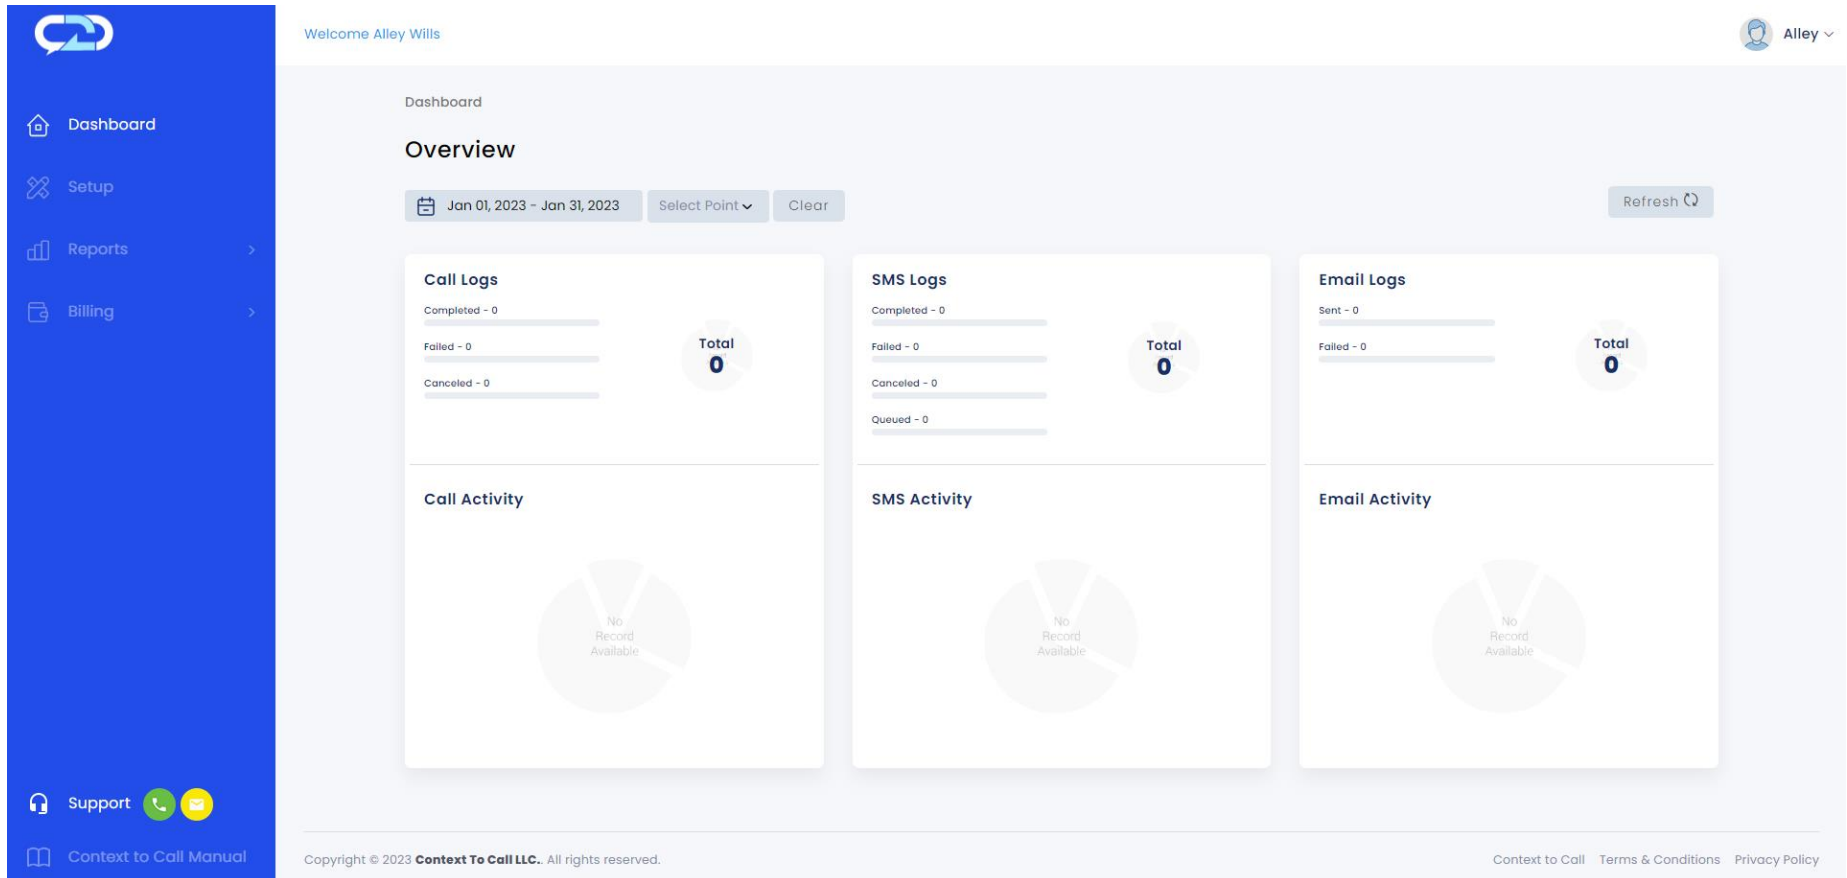

Fig 2 - Dashboard

Generate Context to Call Business Embed Code

Step 1: Accessing the Setup - Point Management

- Click on the “Setup” option located on the navigation menu.

Fig 3 – Setup - Point Management

Step 2: Adding Source

Source contains the points added under it. Source name refers to the website name.

Example - If you have a website called "www.amazon.com", you can name your source as Flipkart.

- Click on the 'Add Source' button.

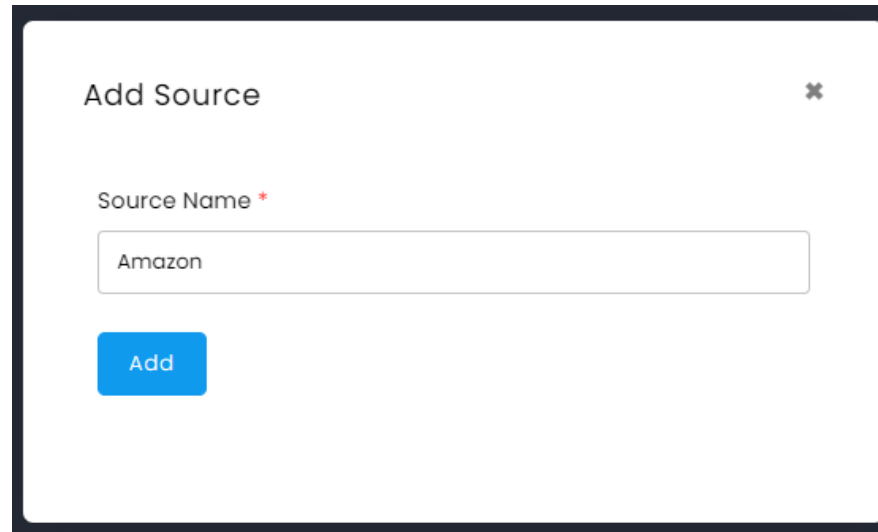

Fig 4 – Add Source

- Enter the Source Name and click on the 'Add' button.

The screenshot shows a dialog box titled "Add Source" with a close button (✕) in the top right corner. Below the title, there is a label "Source Name" followed by a red asterisk (*). Underneath the label is a text input field containing the word "Amazon". Below the input field is a blue button with the text "Add".

Fig 5 – Add Source

Fig 6 – Source Inserted

Types of Point

Global Points and Local Points

The Context to Call Business user can add Global Point or Local Point once at a time while adding a point by enabling/disabling the toggle button for their website domain or limited to a specific website page URL.

- 1) **Global Point** – It is used for creating communication points that are related to a specific Website Domain. Domain Name main part of the address, such as "example" in "example.com".

The Context to Call Business users can place communication points anywhere on their website which will be visible where they have placed the point on their website. The Context to Call user must provide a domain name of their website under the “Website Domain” textbox.

The communication point will function only if the domain name provided by the Context to Call Business user matches the domain name of where the Global Points are placed.

- 2) **Local Point** – It is used for creating a communication point for the specific Page of the website. The domain is the main part of the URL that identifies the website, and the path indicates the specific location of the page within the website's directory structure.

It may include folders, subfolders, and the page filename. For example, "/page" is the path in the URL "https://www.example.com/page".

The Context to Call Business users can create communication points for different pages of their website by providing the Page URL under the “Website's Page URL” textbox.

The communication point will function only if the Page URL provided by the Context to Call Business user matches the Page URL where the Local Points are placed.

Step 3: Adding Point

- Source inserted in the previous step is visible under Setup - Point Management.

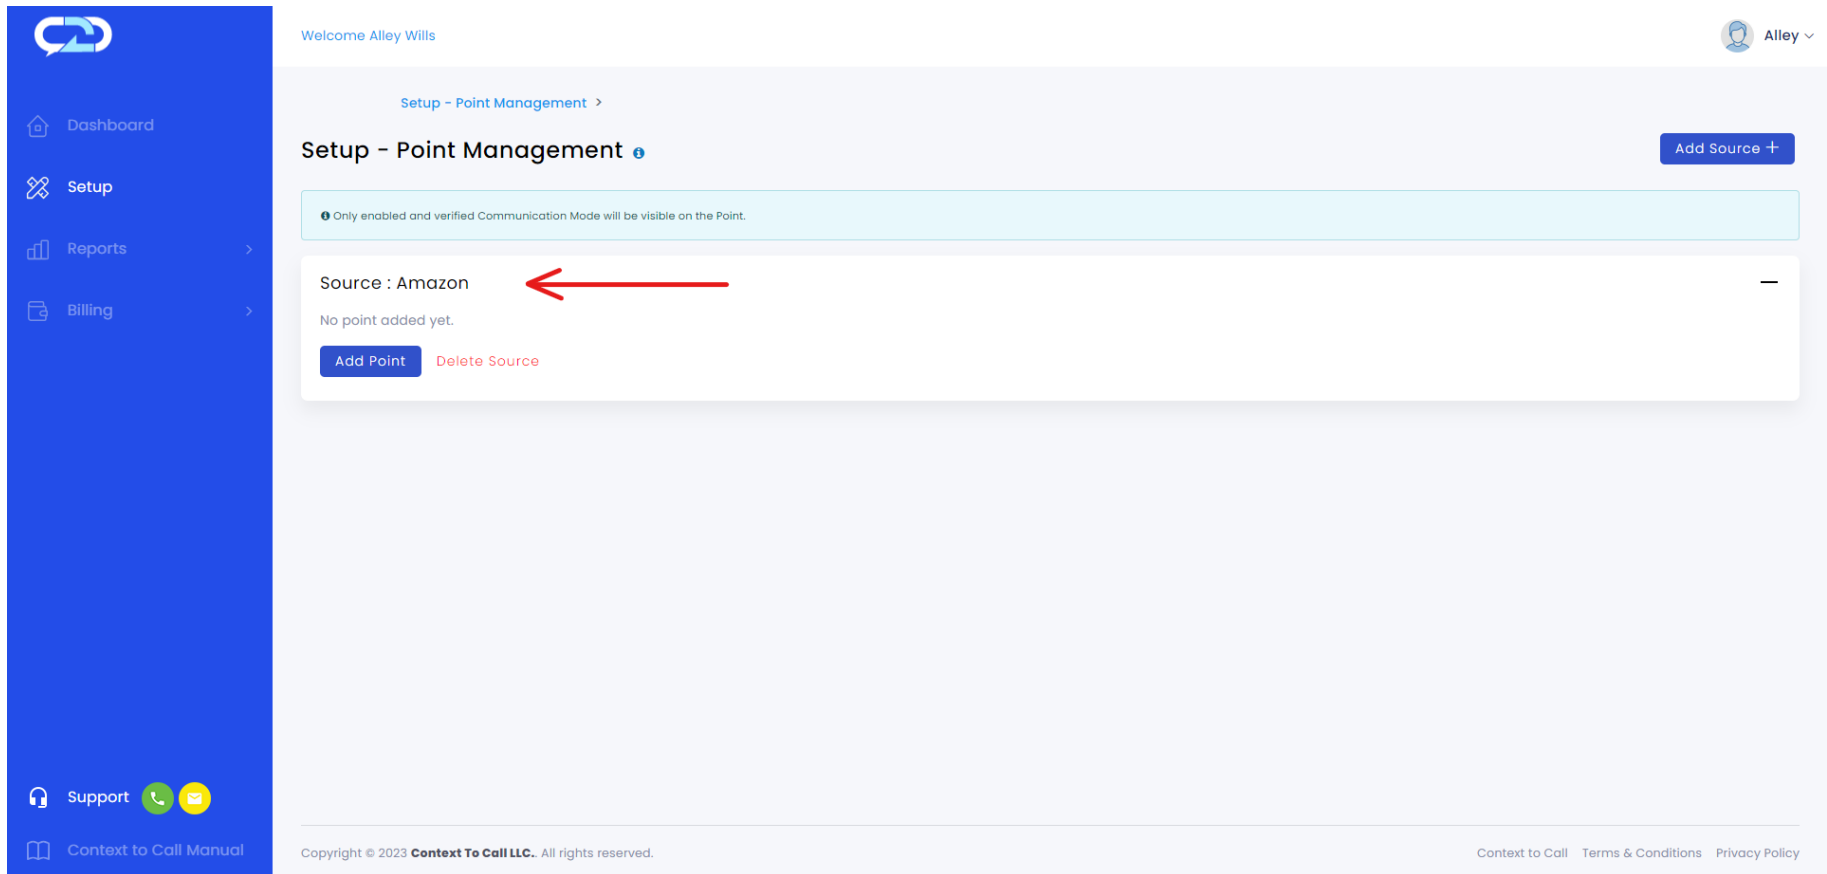

Fig 7 – Source: Setup - Point Management

- Click on the 'Add Point' button.

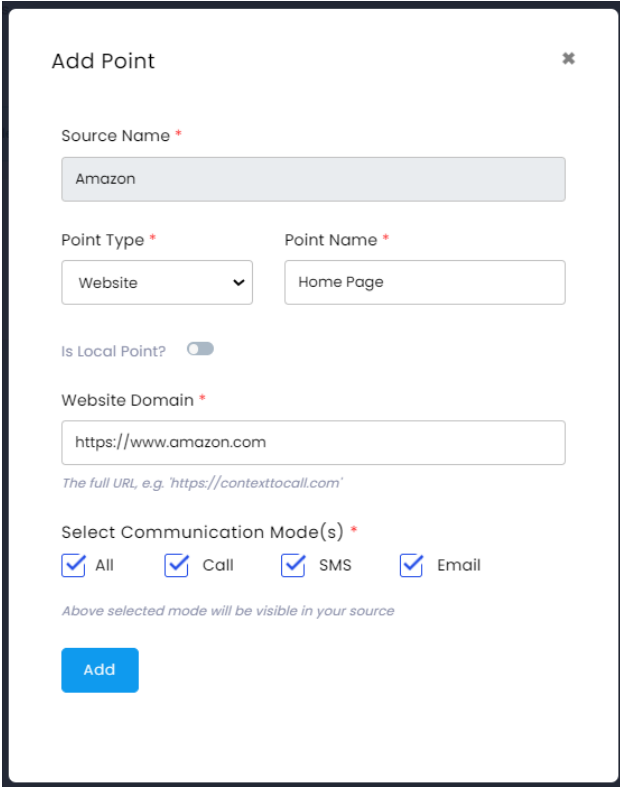

Fig 8 – Source: Add Point Button

Adding Global Point

- Source under which you want to add the Point will Auto-Populate in the Source Name field.
- Select 'Point Type' as 'Website' from the dropdown.
- Enter the 'Point Name' for your reference. Ex., If you want to place an Icon on your website's Home Page.
- Disable the 'Is Local Point?' toggle button to make the point a Global Point.
- Enter the Website Domain in the 'Website Domain' textbox.
- Select the 'Communication Modes' you want to place on your website.
- Click on the 'Add' button to add the point.

The screenshot shows a form titled "Add Point" with a close button in the top right corner. The form contains the following fields and options:

- Source Name ***: A text input field containing "Amazon".
- Point Type ***: A dropdown menu with "Website" selected.
- Point Name ***: A text input field containing "Home Page".
- Is Local Point?**: A toggle switch that is currently turned off.
- Website Domain ***: A text input field containing "https://www.amazon.com". Below this field is a note: "The full URL, e.g. 'https://contexttocall.com'".
- Select Communication Mode(s) ***: Four checkboxes are checked: "All", "Call", "SMS", and "Email". Below these is a note: "Above selected mode will be visible in your source".
- Add**: A blue button at the bottom of the form.

Fig 9 – Add Point: Global Point

Fig 10 – Global Point Added

Adding Local Point

- Source Name will auto-populate for you.
- Select 'Point Type' as 'Website' from the dropdown.
- Enter the 'Point Name' for your reference. Ex., If you want to place icons on your website's Contact Us page.
- Enable the 'Is Local Point?' toggle button to make the point a Local Point.
- Enter the Website Page URL in the 'Website's Page URL' textbox. Ex., If you want to limit the Icons to a specific page of your website i.e. "www.amazon.com/contactus".
- Select the 'Communication Modes' you want to place on your website.
- Click on the 'Add' button to add the point.

Fig 13 – Points Added under Source

Step 4: Points Verification

- Click on the 'View' button to view the 'Point Details' under Setup - Point Management.

The screenshot displays the 'Setup - Point Management' interface. On the left is a blue sidebar with navigation options: Dashboard, Setup, Reports, and Billing. The main content area shows a header with 'Welcome Alley Wills' and a user profile 'Alley'. Below the header is a breadcrumb 'Setup - Point Management >' and a title 'Setup - Point Management' with an information icon. A blue 'Add Source +' button is in the top right. A light blue notification bar states: 'Only enabled and verified Communication Mode will be visible on the Point.' Below this is a section for 'Source : Amazon' containing a table with columns: Point Name, Status, Destination, Call, SMS, and Email. The table lists two points: 'Contact Us' and 'Home Page'. Each point has a 'View' button and a trash icon. A red arrow points to the 'View' button for the 'Home Page' entry. At the bottom left of the table area are buttons for 'Add Point' and 'Delete Source'.

Point Name	Status	Destination	Call	SMS	Email	
Contact Us	<input checked="" type="checkbox"/>	https://www.amazon.com/contactus	<input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/>	View <input type="checkbox"/>
Home Page	<input checked="" type="checkbox"/>	https://www.amazon.com	<input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/>	View <input type="checkbox"/>

Fig 14 – Points View Button

- Under the Point Info. tab, click on the 'Edit' button to verify the Call/SMS/Email.

The screenshot displays the 'Point Info.' tab within the 'Setup - Point Management > Point Details' section. The interface includes a blue sidebar with navigation options: Dashboard, Setup, Reports, Billing, Support, and Context to Call Manual. The main content area shows the following details:

Point Name	Home Page	Edit	
Website URL	https://www.amazon.com		
Is Local Point?	No		
Status	● Active		
Icons	<input checked="" type="checkbox"/> Call	<input checked="" type="checkbox"/> SMS	<input checked="" type="checkbox"/> Email
	Verify	Verify	Verify

Red arrows point to the 'Point Info.' tab and the 'Edit' button.

Fig 15 – Point info: Edit Button

- Click on the 'Verify' button located below the 'Call', 'SMS', and 'Email' label to verify the communication mode individually.
- Enter your Business Contact information, where you want to receive the 'Call' & 'SMS'.
- Enter your Business Email information, where you want to receive the 'Email'.

Call **SMS** **Email**

The figure displays three separate verification screens side-by-side. The first screen, titled 'IVR Verification', features a 'Country Code' dropdown menu, an 'Enter Business number to call' input field, an 'Ext.' input field with a '0' icon, and a blue 'Proceed' button. The second screen, titled 'Verify Business SMS', includes a 'Country Code' dropdown menu, an 'Enter Business number to SMS' input field, and a blue 'Proceed' button. The third screen, titled 'Verify Email', shows an 'Enter Business email address' input field and a blue 'Proceed' button.

Fig 16 – IVR Verification Screen

- Click on the 'Proceed' button to receive the OTP to verify the 'Call', 'SMS', and 'Email' individually.
- The 'Verify' button will turn to 'Verified' and click on the 'Update' button to update the verification.

The screenshot displays the 'Point Info' page in the Context to Call interface. The page is titled 'Welcome Alley Wills' and shows the user's profile 'Alley'. The main content area is divided into sections: 'Setup - Point Management > Point Details', 'Point Info.', 'Embed Code', and 'Settings'. The 'Point Info.' section contains the following fields and controls:

- Point Name:** A text input field containing 'Home Page'. To its right are 'Update' and 'Cancel' buttons.
- Website URL:** A text input field containing 'https://www.amazon.com'.
- Is Local Point?:** A toggle switch currently turned off.
- Status:** A toggle switch currently turned on.
- Icons:** Three verification status indicators: 'Call' (Verified), 'SMS' (Verified), and 'Email' (Verified). Each indicator has a 'Change Number' or 'Change Email' button below it.

A red arrow points to the 'Update' button, indicating the next step in the process.

Support icons for phone, chat, and email are visible at the bottom left. The footer contains copyright information for Context to Call LLC and links to Terms & Conditions and Privacy Policy.

Fig 17 – Point Info: Update Button

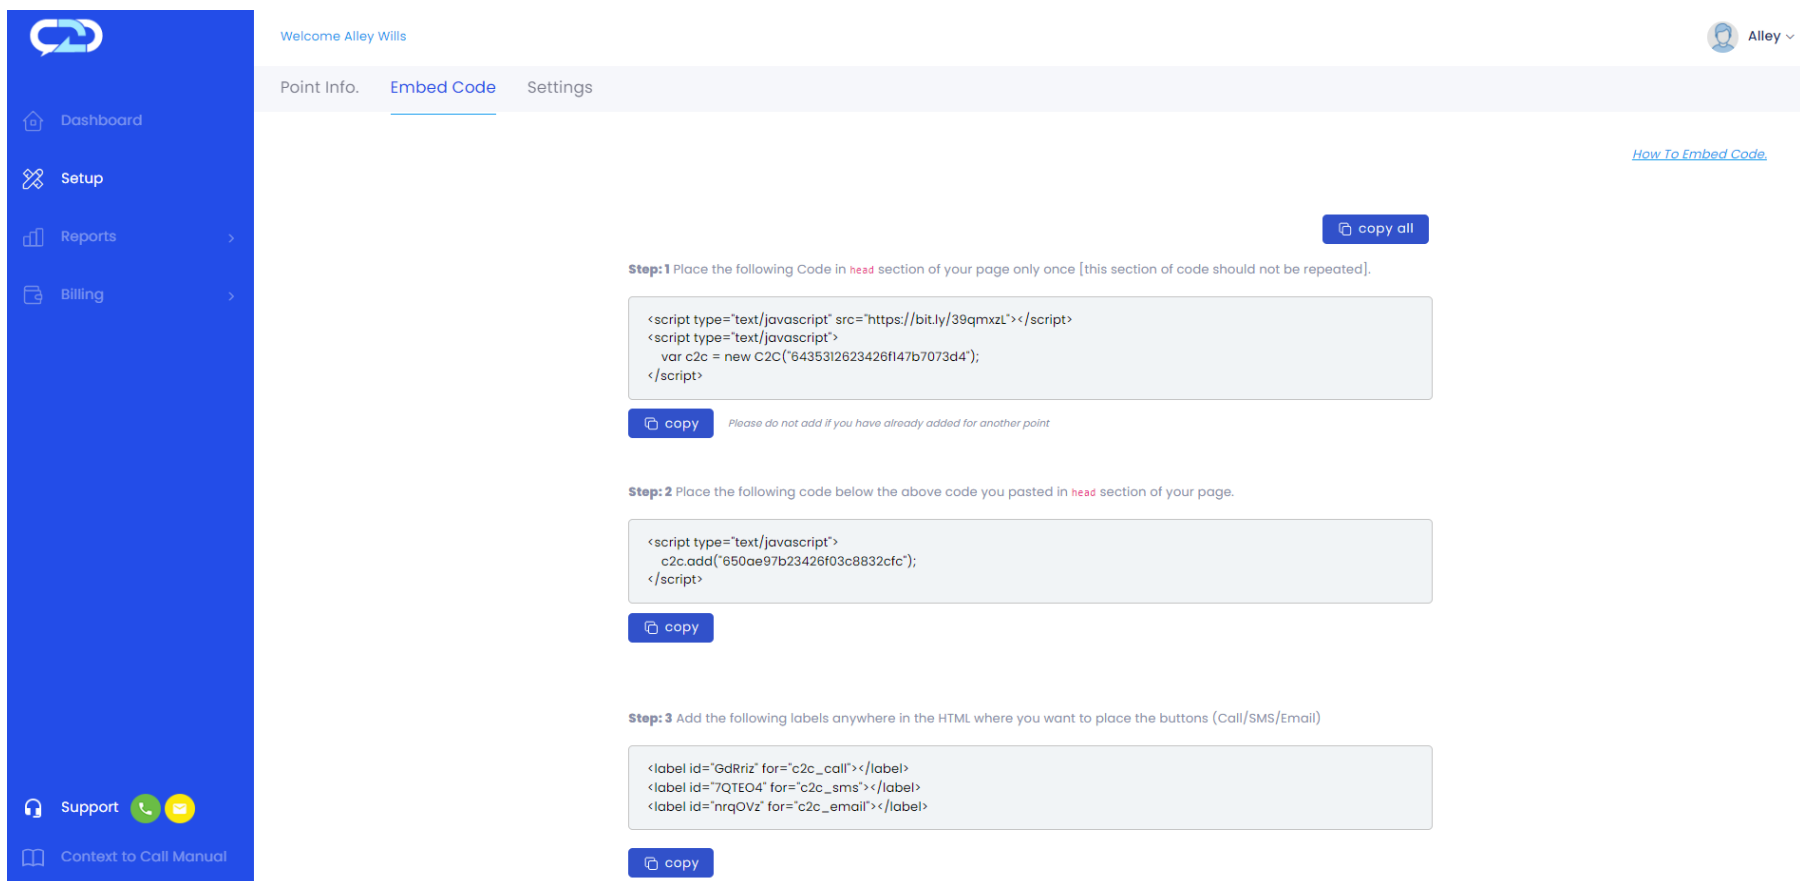

Step 5: Embed Code

- Click on the 'Embed Code' tab to view the Embed Code generated after 'Call', 'SMS', and 'Email' is verified.
- Copy and paste the generated Embed Code on your website by following the instruction mentioned.

Note:

To enable the Context to Call Business functionality (Call/SMS/Email) Icons, paste Step 1 and Step 2 of the Embed Code in the Head Section of your website.

Paste Step 3 of the Embed Code in the Body Section of your website, where you want the Icons to display on the website.

Welcome Alley Wills

Point Info. **Embed Code** Settings

[How To Embed Code.](#)

Step:1 Place the following Code in **head** section of your page only once [this section of code should not be repeated].

```
<script type="text/javascript" src="https://bit.ly/39qmxzL"></script>
<script type="text/javascript">
  var c2c = new C2C("6435312623426f147b7073d4");
</script>
```

Step:2 Place the following code below the above code you pasted in **head** section of your page.

```
<script type="text/javascript">
  c2c.adal("650ae97b23426f03c8832cfc");
</script>
```

Step:3 Add the following labels anywhere in the HTML where you want to place the buttons (Call/SMS/Email)

```
<label id="GdRriz" for="c2c_call"></label>
<label id="7QTEO4" for="c2c_sms"></label>
<label id="nrqOVz" for="c2c_email"></label>
```
